Introduction

Hello,

The political disorder of the last few months has generated economic repercussions that have finally reached our industry.

As you know, we are always working very hard to offer you the best products available at the best prices

Therefore, we are pleased to present the 2026 BM Sports Distribution catalog. We have been your Canadian taxidermy supplier since 1988.

Thanks for your support.

Vicky Leblanc and Marc Listopad
BM Sports Distribution's owners

Price subject to change without notice.
No exchange or refund unless the product is defective.

Breakthrough Manuals and Booklets

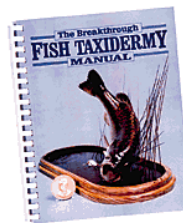

FISH PAINTING ENCYCLOPEDIA

"Fish Painting Encyclopedia" contains complete airbrush painting procedures for most commonly mounted fish. Detailed black and white diagrams show step by step color application. (No other photographs.) 156 pages.

BP1001 44.50 \$CAD

FISH TAXIDERMY MANUAL

Features most of the Fish Mounting Methods in use today. This book explains the techniques of the top fish taxidermists in the world from reference, skinning, mounting, to finishing techniques. 162 pages.

BP1006..... 44.50 \$CAD

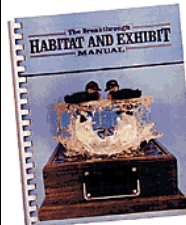

WATERFOWL AND BIRD FINISHING MANUAL

This manual includes 75 paint finishing schedules for the feet, legs and bills of most North American waterfowl and most commonly mounted upland game birds. Each finishing schedule explains the exact airbrush painting instructions with clear black and white diagrams showing the areas of color application. 192 pages.

BP1002.....44.50 \$CAD

HABITAT AND EXHIBIT MANUAL

Learn the secrets of America's top wildlife artists for creating beautiful habitat scenes for their mounts and carvings. Learn the art of working with resins, foams, epoxies, maches, and dozens of other materials to create convincing artificial water, snow, earth, rocks, and vegetation to enhance your work. 156 pages.

BP100744.50 \$CAD

WHITETAIL/MULE DEER TAXIDERMY

A complete start to finish comprehensive detailed account of how two time World Champion Sallie Dahmes mounts Whitetail and Mule Deer shoulder mounts. Everything from skinning to finishing procedures are covered with clear photographs and diagrams illustrating every step. 160 pages.

BP1003.....44.50 \$CAD

BIRD TAXIDERMY MANUAL

This step-by-step manual includes all the information necessary to mount beautiful birds. This book shows all of the current taxidermy techniques, including mounting on wrapped bodies, carved bodies, rigid foam manikins, and flex manikins. 156 pages.

BP100844.50 \$CAD

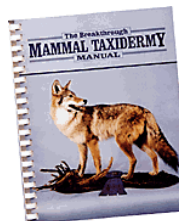

FISH FINISHING SYSTEM MANUAL

"The Tom Sexton Fish Finishing System" contains the exact detailed procedures that World Champion Fish Taxidermist Tom Sexton uses for finishing fish. In this book, he explains all the techniques, procedures and secrets necessary for creating world-class finishing jobs on fish. 116 pages.

BP1004.....44.50 \$CAD

MAMMAL TAXIDERMY MANUAL

This is a comprehensive book that features several different methods for mounting life size mammals, as well as illuminating chapters on tanning, studio design, skull preparation, altering manikins, base construction, and finishing techniques. 160 pages.

BP100944.50 \$CAD

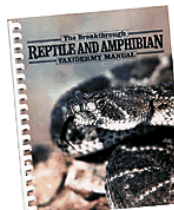

WHITETAIL TAXIDERMY MANUAL

Features many of the preferred methods of the top whitetail deer taxidermists in the country. The clear step-by-step photos and easy-to-understand text explain how to professionally mount a whitetail using current techniques. 112 pages.

BP100549.50 \$CAD

REPTILE AND AMPHIBIAN MANUAL

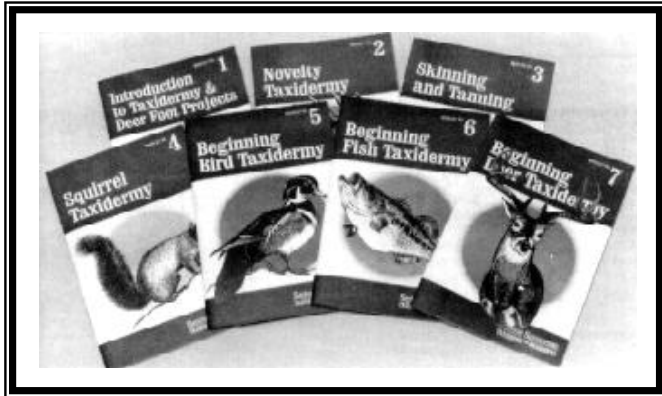

The recent addition to the Breakthrough Wildlife Art Manual library, this is the definitive source for modern reptile and amphibian taxidermy information. Written by Ken Edwards with contributions from the world's foremost reptile experts. 172 pages

BP1011 44.50 \$CAD

Breakthrough Manuals and Booklets

TAXIDERMISTRY FOR BEGINNERS

Taxidermy has changed dramatically in the past decade. Methods that were common ten years ago have slipped into oblivion as new technology has produced easier and more effective methods. There is only one booklet course that trains beginning taxidermists in this new technology: "Serious Sportsmen Taxidermy for Beginners." This set of seven booklets includes 29 lessons that take you from the basics of skinning and tanning, all the way through full body mounts of squirrels, fish, birds and big game shoulder mounts. Each lesson is profusely illustrated with dozens of clear black and white photographs and diagrams to guide you every step of the way. It is written in plain English and does not require any previous taxidermy knowledge to understand.

BP3000 (Seven Booklets)set 44.50 \$CAD

BOOKLET NO. 1: INTRO TO TAXIDERMISTRY & DEER FOOT PROJECTS

Lesson 1: Introduction to Taxidermy
Lesson 2: Skinning a Deer Foot
Lesson 3: Mounting a Deer Foot
Thermometer
Lesson 4: Mounting a Deer Foot Gun Rack
Lesson 5: Mounting a Deer Foot Lamp

BOOKLET NO. 2: NOVELTY TAXIDERMISTRY PROJECTS

Lesson 6: Skull Cleaning and Mounting
Lesson 7: Antler Mounting
Lesson 8: Deer Rump Mounting
Lesson 9: Other Novelty Mounts

BOOKLET NO. 3: SKINNING AND TANNING

Lesson 10: Introduction to Tanning
Lesson 11: Skinning a Small Mammal for
a Flat Rug
Lesson 12: Tanning a Mammal Skin
Lesson 13: Skinning and Tanning a Snake

BOOKLET NO. 4: BEGINNING SQUIRREL TAXIDERMISTRY

Reference Material

REFERENCE CASTS AND PHOTOS

REFERENCE CASTS

REFERENCE EYE CASTS

An outstanding aid for setting eyes and sculpting eyelids. These casts are manufactured from a "tough" break-resistant resin with a molded-in hanger wire for convenience. Shows a hair-on view of the upper and lower eyelid, nictitating membrane and tear duct areas. Despite the low cost of these reference casts, an investment in them will reap big dividends in the quality of your taxidermy work. Approximately 3" diameter.

R55 E (Whitetail Eye Cast)each 15.95 \$CAD

EAR CASTS

Muscle groups are accurately detailed in relationship to the ears and antlers.

REF-103 (ear forward).....each 29.95 \$CAD
REF-104 (ear back).....each 29.95 \$CAD

SETTING TOOLS

EYE SETTING TOOL

Achieve the correct eye shape every time on every mount. Simply place the template for the eye set in position and lay your eye setting material to the template.

CC-241 (Deer medium).....39.95 \$CAD
CC-242 (Deer large).....39.95 \$CAD
CC-280 (Moose).....39.95 \$CAD
CC-215 (Black bear).....39.95 \$CAD

EAR CANAL TOOL

Make a perfect ear canal in less than 30 seconds. Mount and fill ear butt as usual. Then simply press ear canal tool in ear, press slightly, remove, and you are finished. Now your commercial work can have the quality of competition mounts without any extra effort. On certain filling materials, it is recommended that the tool be coated with a release agent.

SE-105..... each 34.95 \$CAD

FLESHING KNIFE

A 3 sides fleshing knife. Overall length 18". Length of blade is 11".

- MR500..... 59.95 \$CAD

"THE PERFECT KNIFE" - 2 1/4" SLIGHTLY CURVED SKINNING & FLESHING KNIFE

Similar in style to the Perfect Knife, but it has a plastic handle and a slightly longer blade. It is also about one-fourth the price.

- MR119each 13.95 \$CAD

DIEHM FISH SKINNING KNIFE

This invaluable skinning knife separates delicate skin from flesh without tearing.

- FSKeach 16.25 \$CAD

THE "SKIFE"

This handy little tool easily shaves through the outer layers of leather only. Use for fleshing around the face, lips, eyes, etc.

- 925 each 18.25 \$CAD

SKIVING KNIFE REPLACEMENT BLADES

Razor sharp replacement blades for The "Skife" listed above.

- 925-D (20 blades with safety dispenser).....each 21.50 \$CAD
- 925-100 (100 blades, no dispenser)...each 65.00 \$CAD

IRIS SCISSORS

Thin, sharp, curved blades permit delicate cutting during skinning and fleshing operations for small fish and birds. Good for cutting small muscle and tendons, intricate work around skulls and eye sockets.

- MR30022.00 \$CAD

Tools

JIM HALL FISH FLESHING TOOL

Original design removes flesh from fish without tearing the skin.

FP192each 35.00 \$CAD

JIM HALL MAMMAL FLESHING TOOL

One side of this blade has serrated teeth, while the other side has a flat edge which can be sharpened. Based upon the design of the successful fish fleshing tool, this hand-held scraper is used to remove meat, flesh and fat from raw, salted, or pickled skins. Also great for working a tanned hide for added softness and stretch.

JHT103.....each 35.00 \$CAD

MEMBRANE SEPARATOR

This flat-bladed (very thin but strong) tool is excellent for slipping under the shoulder girdle "cleithrum" to separate fragile fish skin membranes from bony areas without tearing. Also good for cleaning the cheek pockets on smaller fish. Designed by premiere cold-water taxidermist Jim Hall.

JHT100.....each 27.00 \$CAD

HOOK SCRAPER

This handy tool, designed by Jim Hall, removes meat from the cheek pockets and tail of most sizes of fish. Similar to the membrane separator (previous page) but with a curved tip.

JHT101.....each 21.00 \$CAD

BRAD & PIN SETTER

Magnetic head holds pin or brad in place. Wooden handle.

BRS.....each 29.50 \$CAD

BIRD & SMALL GAME SKINNING GAMBREL

Three-chain and hook gambrel is perfect for suspending small game and birds over your workbench as you skin them. (We call it "The Third Hand.")

JHT102each 18.00 \$CAD

EAR OPENERS

Non-Rusting Alloy

MR200each 40.50 \$CAD

GEORGE ROOF TAXI-TUK

George Roof designed a taxidermy tool for tucking hides into lifesized mannikin relief cuts. The tool is called the TaxiTuk tool and no taxidermy shop mounting lifesize animals should be without this little gizmo. It will never puncture or cut your hide, and when you tuck the skin in a slot, it will stay in place when the tool is removed.

MR215each 28.50 \$CAD

GAMEHEAD MEASURING TAPE

Every wildlife artist needs one of these non-stretching, fiberglass-reinforced tape measures. Use it to take vitally important measurements of your subject. These tapes are 36" in length. Wipes clean easily.

GMTeach 6.50 \$CAD

TUNGSTEN HONING STEEL

That tool will easily put an edge back on your fleshing machine blade..

S-931 31.50 \$CAD

Tools

HIDE PULLER

Constructed from maple hardwood with six pronged teeth on one end and corrugated rubber on the other.

HP.....each 40.50 \$CAD

STOUT RUFFER

This handy tool scratches the surface of foam mannikins without removing the detail. Hundreds of teeth uniformly roughen to create an ideal surface for hide pastes to adhere to. The Stout Ruffer can also be used to alter mannikins like a rasp.

STR 100.....each 46.50 \$CAD
STR 101(Replacement pad for STR 100)..each 32.50 \$CAD
SLR2(Slim Ruffer).....each 46.50 \$CAD

OPTI-VISOR

The Opti-Visor is a precision binocular headband magnifier which allows you to see all objects closely, while leaving both hands free to work. The lenses are optical glass, ground and polished to precise standards. The visor tilts out of your way when not needed, and is at your fingertips when you want magnification. The adjustable headband is lightweight and comfortable, and the Opti-Visor can be worn over regular glasses. Magnification of lens 3 1/2 times.

OPTI.....each 53.95 CAD

NEEDLE TOOL

Heavy-duty, all purpose.

NT2860.....each 8.95 CAD

MODELING TOOL

One end of this hardened steel tool has a dull point for taxing skin, while the other has a rounded end for smoothing and shaping. Absolutely perfect for critical eye and nose work. Center of handle is non-slip rubber.

MR230each 39.50 \$CAD

EYE MODELING/LIP TUCKING TOOL

This new custom modeling tool was designed and manufactured by 1995 World Champion whitetail deer taxidermist Gene Smith of North Carolina. Perfect for all game head work, it is manufactured from stainless steel which will not rust or tarnish like brass and will not bend or break like wood or plastic tools. One end has a lip tucking tool made in the ideal shape for tucking skin in thin slots. It is slightly rounded to prevent any damage or tearing of the skin. The other end of this handy tool is a flat rounded modeling tool, perfect for shaping eyelids. A clear plastic handle provides a comfortable, non-slip surface for pinpoint control. Once you try this new tool, you will never want to mount a game head without it!

MR231each 45.00 \$CAD

GENE SMITH MODELING TOOL

Here's a brand new stainless steel modeling tool developed by 1995 World Champion Whitetail deer taxidermist Gene Smith of North Carolina. Manufactured from stainless steel, it is a super thin, long and slender modeling tool which allows you to reach areas that have been unreachable in the past. Now you can model areas deep inside fish throats; up against the crusher teeth; down within deep ear canals on gameheads; inside lip and gum lines; and deep inside nostrils. The rounded, thin-bladed ends are perfect for modeling epoxies, waxes or polyesters. One end has a flat modeling surface while the other is gently curved. The overall length of 8" makes this one of the longest modeling tools around. Stainless steel construction for years of maintenance-free use.

MR232each 45.00 \$CAD

Tools

FLESHING MACHINE BLADE

Hard steel premium blade cut smooth.

S-919 (Size: 11 3/4")each 198.00 \$CAD

FLESH-ALL MINI SHAVER

Here is an alternative to expensive fleshing machines. This amazing hand tool, invented by taxidermist Dale Guinn of Oklahoma, attaches to your air compressor to shave mammal skins similar to the large table models costing 4 to 5 times as much. The depth of the cut is controlled by an adjustable blade guard. Optimum operating air pressure is 50 psi of continuous air at 4.0 CFM (this will require at least a 2 1/2 HP compressor). Works great for shaving intricate facial details as well as larger areas of the hide. Extremely easy to use!

MFAeach 450.00 \$CAD

MFB (Replacement Blade)each 45.00 \$CAD

FLESHING GLOVES

Prevent accidental cuts to your fingers and hands. Made from Dupont Kevlar.

GBG-M (medium)each 19.95 CAD\$

GBG-L (large)each 19.95 CAD\$

FLESHING HORN

Designed by taxidermist Steve Miller, this handy urethane fleshing horn is perfect for hand fleshing small or large game. Insert the pointed end in nostril and eye openings, while the rounded end is great for thinning facial area. Order one today!

SD99each 15.95 \$CAD

STRETCHING PLIERS

The #250 Plier is made with Hammer Jaw; the hammer acts as a lever if a strong pull is required. This is an excellent tool for stretching leather. It can also be used as a hammer. Length 8 3/4". Width of Jaw 3 1/2".

250each 89.00 \$CAD

No. 112 OUTSIDE CALIPERS

Fully Polished.

112-6 incheach 40.00 \$CAD

112-8 incheach 40.00 \$CAD

112-10 incheach 40.00 \$CAD

NITRILE GLOVES

Chemical resistant nitrile gloves. Full arm protection.

CHEMREST (X-Large) 45.00 CAD\$

Mounting Supplies

DOUBLE CURVED NEEDLES

Light to heavy skins. (Triangular Cutting Edge)

These are possibly the best designed needles for the taxidermist. Their unique double-curved design will allow you to easily grip and push the needle through just about any hide without pivoting. The three-sided cutting tip is easy to sharpen. Buy two or more, 'cause you know how needles disappear. (Triangular Cutting Edge)

- H190-1 (5 1/2").....each 5.95 \$CAD
- H190-2 (4").....each 5.95 \$CAD
- H190-3 (3 3/4").....each 5.95 \$CAD

STYLE 104 GLOVERS NEEDLES

These standard sewing needles have a variety of uses around the studio. Perfect for small incisions (Straight Cutting Edge)

- 104-8 (size 2").....each 1.95 \$CAD

STYLE 175 STRAIGHT SEWING NEEDLE

Straight sewing needle - 3 cornered. This is an excellent needle for sewing up those thick hides. (Straight Cutting Edge).

- 175-5 (size 5").....each 5.95 \$CAD
- 175-4 (size 4").....each 5.95 \$CAD

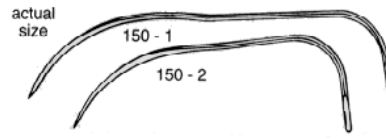

SEWING PALM

Don't run a needle through your hand!

- SPR (Right hand).....each 38.50 \$CAD
- SPL (Left hand).....each 38.50 \$CAD

STYLE 150 "Loopuys" NEEDLES

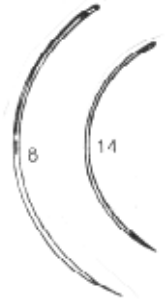

Style 150 needles are designed for good grip and ease of use. Won't wear your hands out after hours of sewing. Great for light to heavy skins. (Triangular Cutting Edge)

- 150-1.....each 5.95 \$CAD
- 150-2.....each 5.95 \$CAD

STYLE 106 NEEDLES (Full Curve Needle)

The Full Curved needle is an excellent tool for light-medium duty repair jobs. Especially good for repairing bird and small mammal skins. No shop should be without at least one and maybe another as a spare. (3/8" Circle Cutting Edge)

- 106-6 (size 2.5").....each 2.95 \$CAD
- 106-14 (size 1.5").....each 2.95 \$CAD

SUPER-PRO SEWING THREAD

This is extremely strong! Excellent brownish-black colored, waxed sewing thread which is perfect for all capes. Whitetail to Moose. 1/4 lb spool will last through about 600 capes. Won't stretch or rot.

- STS (1/4 lb spool)each 25.95 \$CAD

REPAIR THREAD

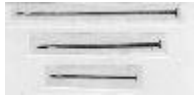

Heavy-duty Nylon, 1/4 lb. (1500 yards) Spool. Excellent for small game and bullet holes. Available in Black, Brown and White

- H-8 (1/4 lb spool).....each 33.95 \$CAD

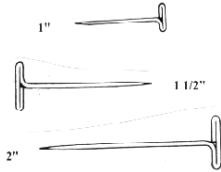

Mounting Supplies

BANK PINS NICKEL ELECTROPLATE

- H17 (1 1/16") (1 lb)each 25.50 \$CAD
- H24 (1 1/2") (1 lb)each 25.50 \$CAD

T-PINS

All-purpose Standard T-Pins. A variety of uses in any taxidermist's studio

- H16T(1") (1/2 lb)each 31.50 \$CAD
- H24T(1 1/2") (1/2 lb).....each 31.50 \$CAD
- H32T(2") 1/2 lb).....each 31.50 \$CAD

JUMBO PLASTIC HEAD PINS

2 1/2" long fish and bird mounting pins. Fine diameter leaves very small hole that usually doesn't require filling. Excellent for holding fish fins in place in combination with galvanized screening and plastic mesh.

- JHP12 (1 dozen)each 9.00 \$CAD
- JHP100 (Box of 100)each 59.95 \$CAD

LOOP-HEAD PINS

16 gauge heavy-duty taxidermy pins. Professional quality. 3 1/2" long pins perfect for fish taxidermy work, or anywhere else a large pin is needed. While mounting fish, insert the pins through the corners of the mouth into the mannikan. This prevents the head from getting any wider as it dries. Another useful trick is to secure and position carded fins and tail with these pins.

- UP12 (1 dozen)each 7.50 \$CAD
- UP144 (1 gross) (144).....each 76.75 \$CAD

UPHOLSTERERS' REGULATOR WITH EYE

A universal tool with numerous uses throughout the mounting procedure. Often used to hold ears in place during the drying process. Size 10.

- 306-1/2 10.....each 17.00 \$CAD

10" ADJUSTING PROBE

Ever need a third or fourth hand when mounting game heads? Well, these little tools are the least expensive helpers you'll ever find. Use them to temporarily hold the cape (or hide) in place while sewing or adjusting - simply push them through the hide into the mannikan

- MR160each 17.00 \$CAD

GLASS HEAD PINS

2" long fish and bird mounting pins. Fine diameter leaves very small hole that usually doesn't require filling. Excellent for holding fish fins in place in combination with galvanized screening and plastic mesh.

- GP 178 (Box of 100)each 27.00 \$CAD

Mounting Supplies

EURO-PINS

These innovative stainless steel mounting pins are perfect for mammals, fish and bird. They include a handy plastic handle which allow them to be easily manipulated by hand. Easy to remove after the mount is dry. Available in 3 sizes. Sold in lots of 100 pins. Also available, an assortment of 90 pins (30 of each size).

- TP 100 (100 mm).....(100 pins) 35.00 \$CAD
- TP 30 (30 mm).....(100 pins) 35.00 \$CAD
- TP 20 (20 mm).....(100 pins) 35.00 \$CAD
- TP 99 (Assortment).....(90 pins) 35.00 \$CAD

BM's EYE PROTECTION

BM's Eye Protection is designed and specially formulated to protect acrylic, plastic and glass eyes from paint overspray. To use, simply clean the eye, then brush on BM's Eye Protection. When you've finished painting, simply remove the thin layer of BM's Eye Protection leaving the eye finished and clean. Can be used with all paints.

- BEP45 (45 ml.)..... 14.95 \$CAD

POLYSOFT PLASTIC FIN CARDING SHEET

(12" x 48" strip - 4 square feet)

FCS75..... each 23.00 \$CAD

GALVANIZED SCREEN WIRE MESH BACKING

(12" x 36" - 3 square feet) 1/4 inch mesh

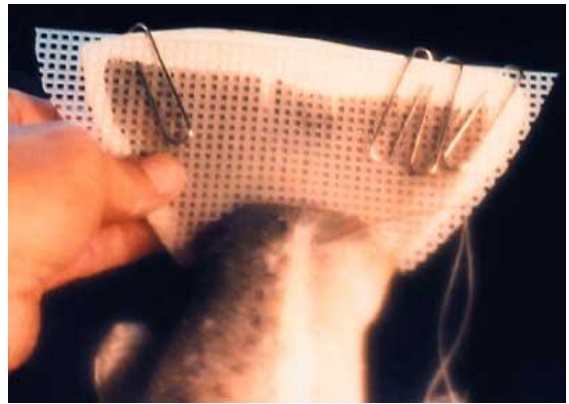

FCS76each 18.00 \$CAD

SILK SPAN

Using Silk Span with BM Clear Fins, you can hide holes or tears in fins so well that you may have a hard time finding them after the fin has dried. Sold in sheet of 24" x 36".

SSP 5.00 \$CAD

POLYSOFT MESH

Not only can Polysoft Mesh be used with your present system, but it may also be used with Galvanized Screen Wire Mesh Backing for curved fins. Can also be used in gamehead mounting to keep hair from standing up, by stapling it to the seam and letting it sit until the hide is dry.

PMC (12 "x 36" sheet)each 31.50 \$CAD

FISH SKIN ROLLER 4" WIDTH

- *Plated steel wire handle
- *Smooth rolling action
- *1/8" thick rubber 1" dia.
- *Wood center with end caps

Excellent for removing those air bubbles when mounting fish skins to mannikans. Ensures a better bond with hide paste.

FSR each 29.00 \$CAD

Epoxies, Adhesives and Fillers

MAGIC SCULPT

Tired of paying an arm and a leg for a two-year supply of sculpting epoxy compound? MAGIC-SCULPT is the answer! It is available in a convenient and inexpensive 8 oz. kit, as well as a traditional 5 lb. kit!

To use MAGIC-SCULPT, you simply mix equal parts of the resin and hardener, then knead together until a uniform color is obtained. It can then be shaped, sculpted and smoothed with a wet finger or modeling tools. It will harden in 1 1/2 to 3 hours.

MAGIC-SCULPT is perfect for fish taxidermy work. It's great for rebuilding sunken areas, setting eyes, sculpting scales, hiding seams and repairing damaged areas. MAGIC-SCULPT will adhere tenaciously to most any surface, and can be sanded and painted when hard. Use in mammal taxidermy for sculpting around jaw sets, noses, eyes, lips, foot pads, etc. Bird taxidermists will find it useful for repairing shot holes in bills and legs, as well as rebuilding eyelids. Order one today and try it out! Colour - Natural.

Easily Mixed (Resin and Hardener slightly color coded: mix until one solid color).

Good adhesion to almost all clean surfaces, including glass.

Excellent malleability.

Good sculpting media: as easy to work with as oil clay.

Surface may be smoothed out with water.

Water and soap clean up.

Completely inert when cured.

Accepts all types of paint.

Surface may be sanded or ground when cured.

No measurable shrinkage.

MS1 MAGIC-SCULPT 16 oz. kit (8 oz. resin plus 8 oz. hardener)..... 38.00 \$CAD
MS2 MAGIC-SCULPT 5 lb. kit (2 1/2 lb. resin plus 2 1/2 lb. hardener)..... 88.50 \$CAD

MAGIC-SMOOTH

Magic Smooth is a two part epoxy similar to magic sculp but having a much softer consistency. The benefits of this product over Magic Sculp is that it can be smoothed to a feather edge making it excellent for finishing detail whether it be fish head detail or mammal eye work. Also an excellent product for fin backing especially where extreme repairs with some sort of backing material are required. Magic Smooth is water based and clean up and smoothing out can be accomplished with simply using water.

MSM-1 16 oz. kit (8 oz. resin + 8 oz. hardener)..... .59.00 \$CAD
MSM-2 4 lb. kit (2 lb. resin + 2 lb. hardener)..... 134.00 \$CAD

ANTLER BASE GLUE

An extremely powerful two-part epoxy adhesive for the taxidermy industry. Designed for gluing skins tightly around antler burrs, earliners to earskin and open-mouth work. This adhesive allows ample work time (1 1/2 hours) before permanently hardening. To use, the artist simply mixes equal amounts of Part A and Part B with a tongue depressor on a paper plate or piece of cardboard. This is not an air dry adhesive - once it sets up, the bond is permanent.

ABG (16 oz. Kit- 8 oz. resin/ 8 oz. hardener).... 59.00 \$CAD

Epoxies, Adhesives and Fillers

APOXIE SCULPT

Apoxie Sculpt is a fine quality epoxy compound. This material has proven itself superior. It is a two part epoxy modeling compound that mixes in equal parts to a soft workable putty that smooths with water. It dries hard, will not shrink or crack and accepts all paints. We feel you will really like the consistency of this product. It won't harden in its container (until the 2 parts are mixed), is user friendly with no harsh chemicals, is virtually odorless, and has an unlimited shelf life if stored frozen. Excellent for finishing open mouths, eyes and nostrils or for repairs such as reconstructing broken antlers. Available in natural color only.

AS-1/4 NATURAL (1/4 lb. kit) 21.00 \$CAD
 Apoxie 1 (1 lb. kit) (Natural) 40.00 \$CAD
 Apoxie 4 (4 lb. kit) (Natural) 72.00 \$CAD

AS-1/4 RED (1/4 lb. kit) 21.00 \$CAD

APOXIE CLAY

Apoxie Clay is the ultimate permanent, self-hardening, synthetic clay, that combines the features & benefits of sculpting clay with those of epoxies. This product offers enhanced detail properties, plasticity, accuracy and handling features make this clay very user friendly. Apoxie Clay offers superior modeling, impressions and detail finishing, with a flat skin-like texture.

AC-1 (1 lb. kit)each 40.00 \$CAD
 AC-3 (3 lb. kit)each 72.00 \$CAD

BM HIDE PASTE

An excellent quality hide paste for fish taxidermy, gluing ear liners to ears, etc. Off white color makes this hide paste ideal for thin-skinned fish, eliminates drumming. Useful in all phases of mammal and fish taxidermy. Ready mixed, Polytranspar Hide Paste is ready to use straight from the pail.

BM-HP32 (32 oz)each 23.00 CAD
 BM-HP1 (1 Gallon).....each 84.00 CAD

SALLIE DAHMES HIDE PASTE

This is a hide paste that comes in a powder and is mixed with water. Lightly sand or use Mannikan Prep before applying hide paste. Before mounting, apply a very thin layer to the entire mannikan. Without hide paste the cape will "drum" or lift from the mannikan creating a poor mount.

SDHP1 (1 lb. bag)each 8.50 \$CAD
 SDHP5 (5 lb. bag)each 24.00 \$CAD
 SDHP10 (10 lb. bag)each 40.00 \$CAD

Epoxies, Adhesives and Fillers

CRITTER CLAY

A multi-purpose, non-cracking, non-shrinking clay. Specially formulated with the Taxidermist in mind.

CC5 (5 lb. block)each 31.00 \$CAD
 CC25 (25 lb. block)each 89.00 \$CAD

'Faunart' CLAY

This grey non-firing clay has an excellent texture and is easily sculpted and modeled. It is now manufactured using a small percentage of cellulose. This process produces a clay with unique workability while shaping and rolling. It easily adheres to add-ons, a touch of water suffices. It strengthens while drying which avoids cracking: plus a definite resistance to impact due to its increased hardness. Air dries rock-hard. Perfect clay to use for sculpting eyelids. Paintable, non-toxic, minimum shrinkage, no-cracking.

FC2 (2 lb. block).....each 6.25 CAD
 FC5 (5 lb. block).....each 11.50 CAD
 FC10 (10 lb. block).....each 20.75 CAD
 FC25 (25 lb. block).....each 41.50 CAD

TOM SEXTON FISH FILLER

An outstanding lightweight fish filler. Good creamy texture that accepts pins when dry and still holds together nicely with adequate strength.

FF5 (5 lb. bag)each 21.00 \$CAD
 FF10 (10 lb. bag)each 38.00 \$CAD

HIGH FIBER

Safe and non-toxic, yet "strong" and ready to use. Useful in maché formulas, or as a bed for molds.

HF5 (5 lb. bag).....each 24.00 \$CAD
 HF10 (10 lb. bag).....each 40.00 \$CAD

SALLIE DAHMES EAR BASE

Sallie Dahmes' personal Ear Base formula is lightweight but very strong. Allows ample time for sculpting the earbutts beneath the skin before drying.

SDEB1 (1 lb. bag).....each 8.50 \$CAD
 SDEB5 (5 lb. bag).....each 20.50 \$CAD
 SDEB10 (10 lb. bag).....each 38.00 \$CAD

DEXTRINE

Dextrine is used as a glue in various formulas to make machés and hide pastes. It can also be added to plaster as a binder for strength and better hold.

DEX5 (5 lb. bag).....each 16.95 \$CAD

MASTER MACHE

Excellent base for mixing your own maché formulas, make fish filler, ear base maché, hide paste, etc. Ideal for habitat base building.

MM5 (5 lb. bag)each 21.00 \$CAD
 MM10 (10 lb. bag)each 40.00 \$CAD

SALLIE DAHMES MACHE

Sallie Dahmes maché is creamy and smooth somewhat stronger and "stickier" than Jim Hall maché. It is used around the antler base to create a smooth contour over the skull plate of game heads.

SDM1 (1 lb. bag)each 9.00 \$CAD
 SDM5 (5 lb. bag)each 21.00 \$CAD
 SDM10 (10 lb. bag).....each 40.00 \$CAD

Epoxies, Adhesives and Fillers

JIM HALL MACHE

It has a "perfect" creamy-smooth consistency. There is adequate strength for most purposes yet it will still accept pins for mounting.

- JHM1 (1 lb. bag)each 9.00 \$CAD
- JHM5 (5 lb. bag)each 21.00 \$CAD
- JHM10 (10 lb. bag)each 40.00 \$CAD

SKULL FINISH

Seal, glue and protect skulls. SKULL FINISH gives to skulls a nice finishing touch. It also protects bones from yellowing and makes it easier to clean. Water based. Apply with a paint brush or a sprayer.

- SF-8 (8 oz.).....each 8.50 CAD
- SF-32 (32 oz.).....each 19.00 CAD

CLAYSHAY (AVES)

Clay and Mache. Aves ClayShay is the best of both. It feels like clay and sets like mache. Aves ClayShay is for universal applications as a clay or a mache. It is a dry powder ready for use with the addition of water and has about a one hour set time. It offers 0% shrinkage. Light brown in color. ClayShay offers lightweight, non toxic, strength and versatility. ClayShay has a double set time to lock in details and eliminate shrinkage. The first soft set occurs in about 1 hour after mixing, the second hard set occurs in 3-4 days when the moisture dries off.

- SHAY-1 (1 lb. bag).....each 9.00 \$CAD
- SHAY-5 (5 lb. bag).....each 21.00 \$CAD
- SHAY-10 (10 lb. bag).....each 40.00 \$CAD

Molding

URETHANE FOAM

This is a 4 lb. density two-component urethane foam. Simply mix equal amounts of part A and part B (1 to 1 ratio by weight). (Caution: Do not breath fumes while foam is expanding.)

UF5 (1 litre A and B)each 65.00 CAD

ALGINATE MOLDING MATERIAL

Holds incredible detail! Will not stick to hair, or anything, (except itself before it sets up). Mix with water. Sets in approximately two minutes. An Alginate mold is usually good for only one casting.

AL1 (1 lb).....each 19.00 \$CAD

HIGH FIBER

Safe and non-toxic, yet "strong" and ready to use. Useful in maché formulas, or as a bed for molds.

HF5 (5 lb. bag).....each 24.00 \$CAD
HF10 (10 lb. bag).....each 40.00 \$CAD

LIQUA-CAST

A super-fast setting two parts casting material which will set up in one to five minutes, depending on the room temperature. Cures rock-hard and is inexpensive enough to use on just about anything. Captures incredible details in flexible molds (not for use in Alginate molds or any other moist material). Use it to cast duck heads, duck feet, teeth, claws, earliners, rocks, leaves, noses or anything you can think of!

LC10-16 (natural color - 8 oz. part A and B) ...24.50 \$CAD

INJECTA-CAST

Injection-grade liquid casting material which sets up hard three to five minutes after mixing. Used to plump up bird feet, small mammal toes, or any injectable area which is susceptible to shrinkage. Simply mix equal parts of part A and part B and quickly inject the material through a hypodermic needle into the toes and foot of the specimen. The syringe and needle should be immediately cleaned with acetone to prevent Injecta-Cast from setting up in the hypodermic needle. Within five minutes the material will harden preventing any further shrinkage

LC30-16 (8 oz. part A and B)..... each 24.50 \$CAD

Tanning instructions

REHYDRATING PROCESS (formula 1)

This process will rehydrate dry salted skins.

Mix:
10 Gal. of water
2 ½ lb. of **Fine Salt**
50 ml. of **Skin Prep NBU**
150 ml of **Relax R**

(Soak overnight)

Remove the skins. Rinse in cold water (20 minutes).
Start pickling according to usual process.

REHYDRATING PROCESS (formula 2)

This process will rehydrate dry salted skins.

Mix:
10 Gal. of water
70 ml of **BM Antibac**
70 ml. of **Safuron** or **BM 4 in 1**

(Soak overnight)

Remove the skins. Rinse in cold water (20 minutes).
Start pickling according to usual process.

PICKLING SOLUTIONS

Here are different solutions for your acid baths. Different products can be used. Just choose the one you're comfortable to work with.

Pickle solution (oxalic acid)

Water 10 Gal.
Tanner's salt (non-iodized) 6 ½ lb.
(or 10 lb of **Fine Salt**)
Oxalic acid 7 ½ oz. (weight)
Transpacide 70 ml

Maintain the PH of the pickle solution between 1 and 2 at all times.

Soak for 12 to 24 hours.
Remove the skins from pickle solution.
Drain and shave the skins.
We recommend returning the skins to the pickle for another 12 hours.
Remove the skins from the pickle solution and rinse the skins in 10 gallons of cold water for 30 minutes before the tanning process.

Pickle solution (sulfuric acid)

Water 10 Gal.
Tanner's salt (non-iodized) 3 ¾ lb.
(or 5 ¾ lb of **Fine Salt**)
Sulfuric acid 70 ml
Transpacide 70 ml

Maintain the PH of the pickle solution between 1 and 2 at all times.

Soak for 12 to 24 hours.
Remove the skins from pickle solution.
Drain and shave the skins.
We recommend returning the skins to the pickle for another 12 hours.
Remove the skins from the pickle solution and rinse the skins in 10 gallons of cold water for 30 minutes before the tanning process.

Pickle solution (formic acid)

Water 10 Gal.
Tanner's salt (non-iodized) 6 ½ lb.
(or 10 lb of **Fine Salt**)
Formic acid 300 ml

Maintain the PH of the pickle solution between 1 and 2 at all times.

Soak for 12 to 24 hours.
Remove the skins from pickle solution.
Drain and shave the skins.
We recommend returning the skins to the pickle for another 12 hours.
Remove the skins from the pickle solution and rinse the skins in 10 gallons of cold water for 30 minutes before the tanning process.

Tanning instructions

TANNING WITH SOLUTAN 2000

Solutan 2000 will create a nice white-colored skin with excellent stretch. Minimum shrinkage.

Tanning solution (Option #1)

Water 10 Gal.
Fine salt 9 ¼ lb
Solutan 2000 ½ lb.
Mixture Derme S 135 ml.
Neutrasium ¼ lb.

Maintain the PH of tanning solution between 3.5 and 4 at all times.

Let soak the skins for 12 to 24 hours.
Remove the skins from tanning solution.
Drain the skins
Neutralize the Ph of the skins

Tanning solution (Option #2)

Water 10 Gal.
Fine salt 7 lb
Solutan 2000 ½ lb.

Maintain the PH of tanning solution between 3.5 and 4 at all times.

Let soak the skins for 12 to 24 hours.
Remove the skins from tanning solution.
Drain the skins
Neutralize the Ph of the skins

NEUTRALIZING THE Ph IN THE SKINS

Neutralizing the Ph of the skins is very important process. If you're not neutralizing the Ph of your skins, the tanning agent will continue its work and will, on a long term, damage the leather.

Neutralizing solution (Option #1)

Water 10 gal.
Sal Soda 1 oz (weight).
Neutrasium 5 oz. (weight)
Safuron 100 ml.

Let the skins soak 30 minutes.
Remove the skins from the solution
Wash the skins in warm water for 20 minutes.

Neutralizing solution (Option #2)

Water 10 gal.
Sal Soda 5 oz (weight).

Let the skins soak 30 minutes.
Remove the skins from the solution
Wash the skins in warm water for 20 minutes.

Neutralizing solution (Option #3)

Water 10 gal.
Baking Soda 10 oz (weight).

Let the skins soak 30 minutes.
Remove the skins from the solution
Wash the skins in warm water for 20 minutes.

ANTLER IN VELVET TANNING

Tanning solution specially designed to set and tan velvet on antlers

Puncture the velvet with needles every 1/4 inch in order to ensure maximum penetration of the solution during soaking
Paint on a heavy coat of **Antler in velvet tan** (p.31 in catalog) and hang to dry for 4 days.
Rinse off residue in cool water and hang until dry.
The velvet can be fluffed with a air dryer or air compressor and soft brush.

BM-TAN 102-128 (1 gallon bottle)each 65.00 CAD

LIPODERM LIQUOR PSE

Lipoderm Liquor PSE is suitable for fatliquoring all types of fur skin. Lipoderm Liquor PSE can be applied to the pickle, to the tan bath or after tanning. In order to obtain a more rapid dispersion, it is advisable to add the fat liquor in form of an emulsion. Leather becomes exceptionally soft when the fatliquor is added to the tan bath. Lipoderm Liquor PSE penetrates rapidly and uniformly into the leather of fur skins and promotes the uptake of other fats. A soft, stretchy and non-yellowing fur leather is obtained with this product. In pickling, or the tanning of fur skins or in a separate bath after tanning: Use 4-10g/Litre Lipoderm Liquor PSE

LIP/PSE-1 (1 Litre).....each 20.00 CAD
LIP/PSE-4 (4 Litre).....each 60.00 CAD

BM 4 in 1

BM 4 in 1 can be used in all soak solutions for cleaning, relaxing degreasing and preparing skins for tanning. It will not cause hair slippage because of its low PH. Stronger than dish detergents.

SAFURON

Pronounced wetting of the leather. Degreases and cleans the surface. Makes the rehydration of the leather easier.

SAF-32 (32 oz.)each 14.00 CAD

SAF -128 (1 gal)each 34.00 CAD

SAF -5 (5 gal)each 130.00 CAD

DEGREASER

(Dangerous good):additional charges will be added for the transport of hazardous materials

SOLUDÉGRAISSE

*** (Dangerous Good)

Solvent cleaner and degreaser. Can be used for fur to dry cleaning with sawdust or for the degreasing of bird skins. This product can be reused several times.

For birds: soak the bird skin completely in Soludégraisse:
15 min./grouse, 30 min./duck, 45 min./goose

SODG-32 (32 oz.)each 17.00 CAD

SODG -128 (1 gal)each 40.00 CAD

SODG -5 (5 gal)each 180.00 CAD

SOLUPRÉSERVE

*** (Dangerous Good)

A unique product of its kind to prepare fish skins for tanning. Holds the scales that tend to detach from the skin, provides a good elasticity and a smooth surface when it dries. Dilute **Solupréserve** 50/50 with warm water and submerge the skin at least 24 hours, or more, if the fish skin is oily. Rinse in cold water with **Safuron**. Then submerge in water with **Borax**: a cup per gallon of water for 20 minutes. Now your fish is ready for mounting.

SOPR-32 (32 oz.)each 15.50 CAD

SOPR -128 (1 gal)each 35.50 CAD

SOPR -5 (5 gal)each 160.00 CAD

BM POLY-TAN

*** (Dangerous Good)

Can tan fish and bird easily. Mix BM POLY-TAN with an equal amount of water, follow the directions on the bottle and use your solution over and over.

BM-POLY-32 (32 oz.)each 15.50 CAD

BM-POLY-128 (1 gal)each 35.50 CAD

BM-POLY-5 (5 gal)each 160.00 CAD

Tanning and Chemical Supplies

ACIDS AND PICKLING PRODUCTS

(See pickling procedures on page: 18-19-20)

ACID BATH (Oxalic acid)

An absolute **MUST** for good tanning. Increases degree of tan by 50%. When dissolved, rapidly penetrates for proper pickling action. Acid level monitored with Ph paper. Neutralize with Baking Soda.

CT-15-16 (1 lb)	each 9.00 CAD
CT-15-4 (4 lb.)	each 26.00 CAD
CT-15-10 (10 lb)	each 58.00 CAD
CT-15-20 (20 lb)	each 105.00 CAD
CT-15-55 (55 lb.)	each 265.00 CAD

CITRIC ACID

An excellent natural pickling agent. We recommend using Citric Acid when you want to avoid environmental and personal handling problems. It will do as excellent a pickling job as any of the other acids being used. Mix enough pickling solution to completely submerge the skins or capes. Mix the solution 24 hours before you will use it, using hot water. For every 1 gallon of solution needed, mix:

- 1 gallon of hot water
- 3 oz. of Citric Acid = 3 level tablespoonfuls
- 1 lb. of non-iodized salt – 2 ½ cupfuls

After mixing and cooling the solution for 24 hours, test the Ph level. It should read below a 2.5 Ph. If you are using a salinometer, it should read 40% or higher. Place the skins or capes into the solution, and allow them to pickled. The skins or capes will appear translucent and milky colored.

CA-1 (1 lb)	each 6.00 CAD
CA-3 (3 lb.)	each 12.00 CAD
CA-10 (10 lb)	each 36.00 CAD
CA-20 (20 lb)	each 65.00 CAD
CA-55 (55 lb.)	each 160.00 CAD

FORMIC ACID 85%

*** (Dangerous Good)

Use it to adjust the PH level

FORMIC-32 (32 oz.)	each 20.00 CAD
FORMIC-128 (1 gal)	each 49.00 CAD
FORMIC-5 (5 gal)	each 240.00 CAD
FORMIC-45 (45 gal)	each 1600.00 CAD

SULFURIC ACID

*** (Dangerous Good)

Acts on the swelling of the leather

SULF-32 (32 oz.)	each 16.00 CAD
SULF-128 (1 gal)	each 40.00 CAD
SULF-5 (5 gal)	each 150.00 CAD
SULF-45 (45 gal)	each 1000.00 CAD

TRANSPACIDE

Acid to facilitate the fleshing of the skin. It allows the salt to dissolve. It goes through the fat and makes a softer leather.

TRA-32 (32 oz.)	each 20.00 CAD
TRA-128 (1 gal)	each 60.00 CAD
TRA-5 (5 gal)	each 280.00 CAD

TANNER'S SALT (Non-iodized)

The salting process is vitally important for both preventing the hair slippage and preparing the skin for the tanning process. You should thoroughly cover the skin with salt, rubbing it all over and into the entire cape to ensure the penetration. This process will draw the moisture from the cape so lay it on an incline of some type in order to allow the cape drain. An occasional resalting will be required until the cape has sufficiently dried.

*Note: we recommend Tanner's salt (non-iodized) for maximum coverage and penetration.

SALT-2 (2 kg. bag)	each 10.00 CAD
SALT-5 (5 kg. bag)	each 20.00 CAD
SALT-25 (22,7 kg)	each 75.00 CAD

Tanning and Chemical Supplies

MINERAL TANNING PRODUCTS

(See tanning procedures on page: 18-19-20)

SOLUTAN 2000

Mineral tanning agent used to consistently pronounce the action in the fibres of the leather. Makes the leather more supple. Gives a compact structure and a tight grain. To get a leather best quality and superior durability compared to other mineral tanning products.

- TAN 2000-1 (1 kg).....each 22.00 \$CAD
- TAN 2000-5 (5 kg).....each 102.00 \$CAD
- TAN 2000-10 (10 kg.).....each 188.00 \$CAD
- TAN 2000-25 (25 kg).....each 417.00 \$CAD

ALUMINUM SULPHATE

Aluminum Sulphate is recommended only to be used as a light pickling for skins or as a partial tanning agent. This product is not recommended for full tanning because the combination of sulphate and water that leaves sulfuric acid residue in the skin and because of the lack of stretch. A small amount, however, can be used in the salt brine to help set the hair and make the skin easier to shave.

- AS2 (2 kg. bag)each 10.50 CAD
- AS5 (5 kg. bag)each 19.50 CAD
- AS10 (10 kg. bag)each 30.00 CAD
- AS20 (20 kg. bag)each 38.00 CAD

SYNTHETIC TANNING PRODUCTS

(See tanning procedures on page: 18-19-20)

BLANKOTAN

Blankotan is a blend of specially developed oils and tanning agents for the purpose of tanning fur skins and hair-on skins especially for taxidermy. First, use an acid pickle and then brush-on with Blankotan. A 32 oz bottle can tan 4 average size capes.

- BLA-32 (32 oz)each 18.00 CAD

Tanning and Chemical Supplies

NEUTRALIZER

(See neutralizing procedures on page 18)

NEUTRASIMUM

Use to neutralize acids in tanning solutions. It fixed mineral tanning agents in the leather and reduces the chances of oxidation.

- NEUTRA-1 (1 kg)each 7.50 CAD
- NEUTRA -10 (10 kg.)each 88.00 CAD
- NEUTRA -25 (25 kg)each 190.00 CAD
- NEUTRA -250 (250 kg.)each 1440.00 CAD

SODIUM BICARBONATE (Baking Soda)

A very penetrating neutralizing agent used to basify (adjust) Aluminum Sulfate or Lutan-FN.

- BS-1 (1 lb)each 3.00 CAD
- BS-5 (5 lb.)each 10.00 CAD
- BS-10 (10 lb)each 15.50 CAD
- BS-20 (20 lb)each 29.00 CAD
- BS-55 (55 lb)each 72.00 CAD

SAL SODA

This useful product is helpful in dissolving meat, fat and grease when boiling skulls and antler plates. If meat, membrane and grease are not removed, the decaying tissue will attract insects to the mount in the future. To use, simply add a small amount of Sal Soda (1 cup per gallon of water) to salt water in a non-aluminum pan, bring to a boil and immerse the skull or antler plate in the solution. Check the progress occasionally and remove when the flesh turns into a jelly-like substance (within about a half-hour – no longer). The tissue can then be easily removed by scraping off. Repeat if necessary for an additional 15 minutes. After rinsing, the cleaned antler plate is ready for mounting. To bleach out a skull after boiling and removing the meat, soak the skull in Hydrogen Peroxide overnight, rinse and allow the skull to bleach out white in the sun.

- SS-1 (1 lb).....each 4.00 CAD
- SS-5 (5 lb.).....each 12.50 CAD

- SS-20 (20 lb).....each 42.00 CAD
- SS-55 (55 lb).....each 98.00 CAD

TANNING OIL

MIXTURE DERME V

Mixture of natural and synthetic tanning oils. Can be applied directly to the leather or be embedded in tanning solutions. Makes the leather soft and elastic.

- MIX-V-32 (32 oz).....each 17.00 CAD
- MIX-V-128 (1 gal).....each 50.00 CAD
- MIX-V-5 (5 gal).....each 200.00 CAD
- MIX-V-45 (45 gal.).....each 1400.00 CAD

MIXTURE DERME N

Semi-natural oil. This tanning oil penetrates deeply into the leather leaving a good load of oil.

- MIX-N-128 (1 gal).....each 56.00 CAD
- MIX-N-5 (5 gal).....each 250.00 CAD

MIXTURE DERME S

Mixture Derme S is specifically designed to treat fur and wool skins. It makes a white color leather and not yellowed it. Mixture Derme S's property to penetrate deeply into the leather making it more flexible, elastic and silky. Due to its high concentration in emulsifier agent it cleans the fur and emulsify the natural fats in the skin.

- MIX-S-32 (32 oz).....each 18.00 CAD
- MIX-S-128 (1 gal)each 58.00 CAD
- MIX-S-5 (5 gal)each 270.00 CAD

Tanning and Chemical Supplies

TANNING OIL

BEST SELLER

MIXTURE DERME CV-N3

Mixture Derme CV-N3 is a combination of high-quality tanning oils. It provides skin flexibility, a better elasticity and a silky finish leaving pale staining to leather. Mixture Derme CV-N3 is resistant to acids, salts and mineral tanning agents.

- CVN3-32 (32 oz).....each 17.00 CAD
- CVN3-128 (1 gal).....each 56.00 CAD
- CVN3-5 (5 gal).....each 250.00 CAD

MIXTURE DERME C

Semi-synthetic oil. Grease the surface of the leather and makes it more flexible and elastic.

- MIX-C-32 (32 oz)each 18.00 CAD
- MIX-C-128 (1 gal)each 58.00 CAD
- MIX-C-5 (5 gal)each 270.00 CAD

MIXTURE POLYDERME

Mixture Polyderme is a combination of tanning oils containing a low dose of tanning solution. Supplementing the traditional tanning, it has been specifically designed to simplify and improve the quality of the pelts to fur and leather production-related. Mixture Polyderme is dark brown. It reinforced the fibers of the leather by increasing their resistance to water and heat. In addition, it provides better flexibility, elasticity and a silky finish.

- MIX-POLY-32 (32 oz).....each 18.00 CAD
- MIX-POLY-128 (1 gal)each 58.00 CAD
- MIX-POLY-5 (5 gal)each 270.00 CAD

HAIR OFF CHEMICAL PRODUCTS

(See hair off procedures on page 20)

LIME

Basic and chemical agent causing the hair loss.

- LIME-1 (1 kg.).....each 3.00 CAD
- LIME-10 (10 kg.).....each 12.00 CAD
- LIME-25 (25 kg.).....each 25.00 CAD

LIME ACTIVATOR

Basic agent. Will help the lost of hair during the hair off process.

- AC-LIME-1 (1 kg.)each 9.50 CAD
- AC-LIME-10 (10 kg.).....each 73.00 CAD
- AC-LIME-25 (25 kg.).....each 160.00 CAD

NITRO PLUS

Penetrates leather unprocessed dried to give flexibility and regenerate the leather fiber. Very good product for déliming basic agents after a stage of hair off.

- NITRO-1 (1 kg.)each 8.50 CAD
- NITRO-10 (10 kg.)each 47.00 CAD
- NITRO-25 (25 kg.)each 100.00 CAD

HAIR OFF CHEMICAL PRODUCTS

HAIR OFF SYSTEM (BM Sports)

BM Sports Hair Off System is a 2 part kit which is used to strip hair from skin prior to tanning. A 10 gallon kit will dehair 1 deer back skin.

- CSP-10-1 (enough for 10 gal.)..... 15.00 CAD
- CSP-30 (enough for 30 gal.)..... 35.00 CAD

Offering the best tanning products in Canada

Tanning and Chemical Supplies

BM SPORTS DISTRIBUTION is also distributing KNOBLOCHS

LIQUA TAN (Knoblochs)

Liqua Tan is a complete and permanent tan. Fast drying. Compatible with all hide paste, Excellent stretch. Sets hair. No oily mess. Reduces shrinkage to almost zero. Easy to use. Can be mounted the same day or dried and handled as a tanned skin.

K1-32 (32 oz. bottle).....each 31.00 \$CAD
K1-128 (1 gallon bottle).....each 84.00 \$CAD

LIQUA SOFT (Knoblochs)

A special tanning oil designed to be used with Liqua Tan when skins are to be used as flat skins or rugs. Helps produce a soft supple skin. Has special softening agents.

K6-32 (32 oz. bottle).....each 31.00 \$CAD
K6-128 (1 gallon bottle).....each 80.00 \$CAD

LIQUA CURE (Knoblochs)

Liqua Cure is for fish and birds. It preserves (tans), degreases, cleans and removes odors. Liqua Cure also reduces shrinkage. This is a concentrate that is mixed one part Liqua Cure to ten parts water.

K2-32 (32 oz. bottle).....each 37.25 \$CAD

PRE TAN #110 (Knoblochs)

PRE TAN #110 is used in the salt brine solution to help set hair, retard bacteria growth, and pre-tan the skin. This product helps make shaving easier and produces better and softer leather. It does not require neutralizing and will not reduce stretch.

K110-32 (32 oz. bottle).....each 37.50 \$CAD

REPTILE TAN (Knoblochs)

Reptile Tan is used for tanning snakes and other reptiles, leaving them soft and pliable. Easy to use.

K3-16 (16 oz. bottle).....each 27.00 \$CAD
K3-32 (32 oz. bottle).....each 43.00 \$CAD

KEMAL-4 (Knoblochs)

Kemal-4 is a relaxer, skin-prep, detergent type degreaser and cleaner all in one. Concentrated and safe to use. Can be used in all soak solutions. Prepare the skin to accept tanning. Relaxes the skin for easier shaving. Softens skins such as African and grease burned skins. Will not cause hair slippage like ordinary soaps because of its low pH. Is about ten times stronger than most dish detergents.

K12-32 (32 oz. bottle).....each 27.00 \$CAD
K12-128 (1 gallon bottle).....each 80.00 \$CAD

KEMSOL DEGREASER (Knoblochs)

Kemsol Degreaser acts as a solvent. Mixes with up to 20 parts water. No odor and safe to use. Can be used over again. Works excellent on mammals, birds and fish. Can be used in conjunction with Kemal-4. Compatible with tanning agents.

K13-32 (32 oz. bottle).....each 28.25 \$CAD
K13-128 (1 gallon bottle).....each 85.00 \$CAD

RELAX-R (Knoblochs)

Relax R is an oil based skin relaxer that can be used in the rehydrating solution, or can be cut with water and applied directly to the skin.

K5-32 (32 oz. bottle).....each 25.00 \$CAD
K5-128 (1 gallon bottle).....each 78.00 \$CAD

Tanning and Chemical Supplies

BM SPORTS DISTRIBUTION is also distributing KNOBLOCHS

SKIN PREP NBU (Knoblochs)

Skin Prep NBU is safe to use, biodegradable, odorless and colorless. Highly recommended for problems which are associated with hair slippage. Use only 1/8 oz. per gallon of solution.

K34-32 (32 oz. bottle).....each 30.50 \$CAD
K34-128 (1 gallon bottle)each 100.00 \$CAD

DEODORIZER WASH (Knoblochs)

Deodorizer Wash is a concentrated wash that removes and masks unpleasant odors in skins such as bear, antelope, domestic sheep, fox, coyotes, goats, etc.

K7-16 (16 oz. bottle).....each 25.00 \$CAD
K7-32 (32 oz. bottle).....each 38.50 \$CAD

STOP SLIP (Knoblochs)

Will permanently set hair that is loose or starting to slip. Also works excellent for setting the velvet on horns. Spray on atomizer or sponge on.

K22-32 (32 oz. bottle).....each 19.50 \$CAD

BIRD FEET INJECTION FLUID (Knoblochs)

A preservative for injecting into bird feet, wings, feet of small game, and antler in velvet to reduced shrinkage. Safe to use without offensive odors.

K23-8 (8 oz. bottle).....each 13.00 \$CAD
K23-16 (16 oz. bottle).....each 22.00 \$CAD
K23-32 (32 oz. bottle).....each 34.00 \$CAD

PROTEX MOUNT CARE (Knoblochs)

For protection of hair, fur and feathers from moth and other insect damage. Safe and easy to use. Won't wash out. This product is used for new mounts or existing mounts. Protex Mount Care is wiped into the air or added to the sawdust in the fur drum. This product is not water soluble.

K30-32 (32 oz. bottle).....each 47.50 \$CAD

PROTEX PRE SOAK (Knoblochs)

A water soluble compound for protection of hair, fur and feathers from moth and other insect damage. Also cleans and conditions hair. This product is used in the last rinse of the tanning process and in the rehydration bath prior to mounting. Concentrated. Use 1 oz. per gallon of water.

K31-32 (32 oz. bottle).....each 68.00 \$CAD

ANTLER IN VELVET (Knoblochs)

Antler in Velvet Tan is a fast acting permanent tanning solution specifically designed to set and tan velvet on antlers. It will not wash out.

K9-32 (32 oz. bottle).....each 29.50 \$CAD

ANTLER STAIN #2 (CHOCOLATE BROWN)

Antler Stain #2 (Knoblochs) is a stain that builds up gradually. It will give a natural chocolate brown color and will not fade. Alcohol base, can be thinned with water.

K20-16 (16 oz. bottle).....each 23.50 \$CAD

Tanning and Chemical Supplies

TANNER'S SALT (Non-iodized)

The salting process is vitally important for both preventing the hair slippage and preparing the skin for the tanning process. You should thoroughly cover the skin with salt, rubbing it all over and into the entire cape to ensure the penetration. This process will draw the moisture from the cape so lay it on an incline of some type in order to allow the cape drain. An occasional resalting will be required until the cape has sufficiently dried.

*Note: we recommend Tanner's salt (non-iodized) for maximum coverage and penetration.

- SALT-2 (2 kg. bag).....each 10.00 CAD
- SALT-5 (5 kg. bag).....each 20.00 CAD
- SALT-25 (22,7 kg).....each 75.00 CAD

FINE SALT

Covering the flesh side of the skin with salt will draw the moisture from the cape to set the hair and retard bacterial damage.

- FINESALT-2 (2 kg. bag)each 6.00 CAD
- FINESALT -5 (5 kg. bag)each 10.00 CAD
- FINESALT -20 (20 kg)each 20.00 CAD

BORAX (10 MOL)

Used for cleaning, moth proofing and preserving. Also used in tanning solutions and maché formulas.

- PB5 (5 lb.)each 15.00 CAD
- PB 25 (25 lb)each 59.00 CAD
- PB50 (50 lb.)each 110.00 CAD

BM FISH-TAN

The finest tanning formula on the market for fish. Successfully transforms fish skin into a permanent, stable substance. Contains dry chemical and liquid additive. To aid in the complete dissolving of both products it is recommended to mix the solution with hot tap water and allow it to cool before submerging any fish skins.

- FT-3 (enough for 2 gal.)each 16.50 CAD
- FT-6 (enough for 5 gal.)each 32.95 CAD

ZINC SULPHATE

Useful in fish tanning as well as general tans.

- ZS1 (1 lb. bag)each 7.50 CAD
- ZS5 (5 lb. bag)each 27.00 CAD

TANNER'S SAWDUST (Grade M1)

A specifically designed, kiln dried hardwood sawdust for the finishing of fur and bird skins. Highest quality in the commercial tanning industry. Grade M1 dries, conditions and polishes. Resin-free.

- M1-5 (5 lb.)each 11.00 CAD
- M1-10 (10 lb.)each 20.50 CAD
- M1-25 (25 lb.)each 50.00 CAD

Tanning and Chemical Supplies

PH TEST PAPER

The acid concentration of your acid bath solution must be controlled between a Ph of 2-3. Dip a small strip of test paper in the solution and match the color tone against the color chart on the roll dispenser. Single roll dispenser.

- PHT-013 (PH range 0-13).....each 17.00 \$CAD
- PHT-06 (PH range 0-6)each 17.00 \$CAD
- PHT-03 (PH range 0-3)each 17.00 \$CAD

SALINOMETER

Maintain accurate salt percentages in your pickle solutions over time.

- S-METEReach 30.00 \$CAD

CAPE SET

Specially formulated, non-sticking hair setting gel to control unruly hair on game head and mammal mounts. World Champion Sallie Dahmes uses Cape Set on all her deer mounts and suggests applying in the day after mounting a head to control the stubborn hairs on the incision, brisket, etc. Just rub the gel into the hair and allow to dry.

- CT50 (8 oz. bottle).....each 9.95 \$CAD

BLACK SKIN DYE

Fast penetrating, rich black dye that leaves no brittle residue. Excellent for black bear rug work

- DS40 (8 oz. bottle)each 16.95 \$CAD

ANTLER FINISH

Protects antlers of all types. Simply apply on antlers using a paint brush and wipe with a dry towel.

- AFN-250 (250 ml bottle)each 12.50 CAD

POTASSIUM PERMANGENATE

Super product for staining antlers. Dilute ½ oz with 32 oz of water and apply sparingly.

- PP-1 (1 oz. bottle).....each 4.25 CAD
- PP-4 (4 oz. bottle).....each 12.95 CAD

BM ANTLER STAIN

BM Antler Stain is a stain that builds up gradually. The liquid has a purple coloration but it turn to a chocolate brown when it dried. Can be applied with a paintbrush or airbrush.

- BMAS-8 (8 oz. bottle)each 8.00 CAD
- BMAS-16 (16 oz. bottle)each 12.95 CAD
- BMAS-32 (32 oz. bottle)each 22.95 CAD

MAGNESIUM CARBONATE

Excellent product for making a paste to apply chemical products in specific areas. Used in the taxidermy industry to make a paste with Hydrogene Peroxide (WHITE BONE) for bleaching skulls.

- MCB-12 (1/2 lb)each 9.95 CAD
- MCB-1 (1 lb)each 16.75 CAD

WHITE BONE

White Bone is a 12% Hydrogen peroxide used in conjunction with Magnesium Carbonate, mixed to a thin paste consistency and painted on bones.

- WB-8 (8 oz).....each 6.00 CAD
- WB-16 (16 oz).....each 10.00 CAD
- WB-32 (32 oz).....each 18.00 CAD
- WB-128 (1 Gal)each 50.00 CAD

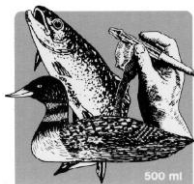

SKULL FINISH

Seals, glue and protect skulls. SKULL FINISH gives to skulls a nice finishing touch. It also protects bones from yellowing and makes it easier to clean.

- SF-8 (8 oz).....each 8.50 CAD
- SF-32 (32 oz).....each 19.00 CAD

BIRD BODIES

Mallard body

A high quality bird mount begins with high quality bodies. Joe Ferebee bird bodies meet this criterion. Constructed with a high quality foam, they provide good stability yet allow easy wiring. Use in conjunction with Ferebee artificial heads and bills or with the flexible game bird heads and necks. Producing a quality bird mount has never been easier.

Reproduction Fish Heads

Robert Kennedy's Fish Heads

These top quality open-mouth heads are easy to use and help you to create a more professional-looking permanent mount. These lightweight heads are hollow for easy attachment to commercial mannikins or hand-carved forms. All heads feature pre-set eye sockets and full mouth interiors. Use these artificial heads to eliminate grease bleed-through problems, shrinkage, and rebuilding problems, odor problems and drying problems.

How to measure

A:Length Tip of the lower jaw to end of gill cover.

B:Height Top of head to throat

C:Width between the gill covers

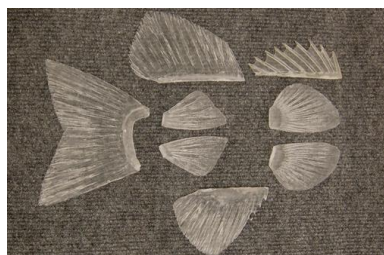

Artificial Fish Accessories

LAKE COUNTRY REPLICAS ARTIFICIAL FINS

Without a doubt the most realistic fins available to the taxidermy industry!

Lake Country Replicas' fins are thin and molded from real fins. They are light and flexible but with good resiliency. The fins are water clear, translucent and have excellent paint adhesion. These fins can be shaped with heat and will hold their shape.

Length refers to the overall length of the fish.

CRAPPIE FINS

NICTATING MEMBRANES

These nictating membranes will enhance the realism of your eyes in competition work. They are not normally used in commercial work but if you have a special trophy that you want to give a quality finish, try these. NM-3 are designed for small mammals, boar and bear. NM-5 may be used for whitetail, mule deer, antelope, sheep, etc.

Ears and Noses

EARLINERS

EPPLEY 360 DEGREE EAR SYSTEM

This revolutionary new system guarantees an anatomically accurate ear position as well as proper placement of the earbutt muscles. These products enable professional taxidermists the ability to achieve competition quality earbutts on commercial mounts in less time than ever before imagined. This earbutt system is engineered to be simple and strong. It saves money in time and effort. The use of very little or no clay translates into faster drying time and a quicker turnaround for today's demanding clients

Eppley 360 Degree Earliners

This innovative idea is on the leading edge of whitetail ear technology. The 360 degree ball fits directly into the ear canal and can then be rotated to any ear position properly and quickly. These earliners are injection molded from a flexible, translucent, and durable plastic. The inner ear is large enough to accept the cartilage bowl of the inner ear, saving you time in skinning and finish work.

- EL360S (Small 5 1/2 x 2 3/4)..... pair 14.95 \$CAD
- EL360M (Medium 6 x 2 7/8) pair 14.95 \$CAD
- EL360L (Large 6 1/2 x 3 1/8)..... pair 15.50 \$CAD

Eppley Earbutts (choice of 2 positions)

These ears back earbutts are made to fit the Eppley 360 degree earliners, with the ball at the base snipped off and removed.. They are manufactured from rigid urethane and designed for a positive fit when matched with the proper size of earliners.

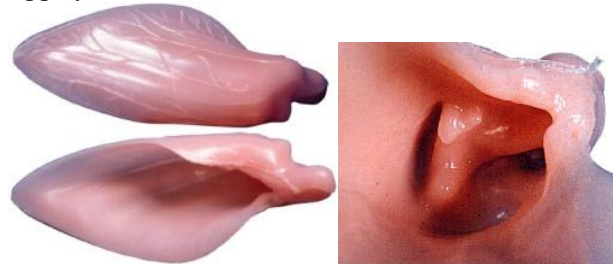

Eppley Ears Forward Earbutts

- ELS360EF (Small Ear Forward Butts) pair 8.00 \$CAD
- ELM360EF (Medium Ear Forward Butts). pair 8.00 \$CAD
- ELL360EF (Large Ear Forward Butts) pair 8.00 \$CAD

Eppley Ears Back Earbutts

- ELM360EB (Med Ear Back Butts)..... pair 8.00 \$CAD
- ELL360EB (Large Ear Back Butts) pair 8.00 \$CAD

Eppley Whitetail Earliners With Inner Ear Detail

These outstanding plastic earliners do not include the earbutt for freedom in posing. The inner ear detail is completely molded in, so no skin or cartilage is required. Translucent pink color with veins on outer ear.

- ELC02 (Medium).....pair 18.00 \$CAD

Whitetail Earliners with earbutts

This new series of earliners sets a new standard for quality commercial earliners. Manufactured from a special translucent flexible plastic, they are the proper thickness and the exact shape for competition work. Molded with ear butts in place (in a forward alert position) these new liners will also save you time.

- ELE02 (Medium 6 x 2 7/8).....pair 18.00 \$CAD

ARTIFICIAL NOSES

Professional taxidermists constantly depend on their ingenuity to save time and money. Along with their ability to produce quality work, time/costs savings are their keys to success. Think about the time it takes to flesh out the real nose, fit it to the form and then reconstruct it to the natural look with an epoxy. Believe us we have tried these noses and we really can't say enough about the quality of the finished look. These noses are exact in every detail and once painted they surpass the natural look of any reconstructed nose.

Habitat

SNOW FLOCKING

This material is applied with a flocking gun or misting water with a handsprayer and sifting or sprinkling the snow over it. It has an adhesive in it that is activated when it is mixed with water. This snow is a finer diameter snow than the Artificial Snow (The most accurate habitat scenes contain at least two textures of snow.)

- ASF25 (25 lb. bag) 270.00 \$CAD

POLYTRANSPAR DIAMOND DUST

This adds an extra "sparkle" to snow habitats and ice scenes. It just takes a very small amount of sparkle sprinkled on snow habitats as a last step.

- DD (1 oz. container).....each 9.00 \$CAD

CLAYSHAY (AVES)

Clay and Mache. Aves ClayShay is the best of both. It feels like clay and sets like mache. Aves ClayShay is for universal applications as a clay or a mache. It is a dry powder ready for use with the addition of water and has about a one hour set time. It offers 0% shrinkage. Light brown in color. ClayShay offers lightweight, non toxic, strength and versatility. ClayShay has a double set time to lock in details and eliminate shrinkage. The first soft set occurs in about 1 hour after mixing, the second hard set occurs in 3-4 days when the moisture dries off.

- SHAY-1 (1 lb. bag).....each 9.00 \$CAD
- SHAY-5 (5 lb. bag).....each 21.00 \$CAD
- SHAY-10 (10 lb. bag).....each 40.00 \$CAD
